🐾 The Daily Poop 🐾

THURSDAY'S RESULTS:

Please see the back of the Daily Poop for yesterday's results.

*From the Best of Breed Judge....
Check in and Ring Procedure*

At the start judging, only Dog specials must come in the ring and be checked in. Once checked in the dogs will be judged in groups of 10 in catalog order. All move ups, Veteran Dogs, Sled Dogs and Winners Dog will come in with the last group which will be judged after Bitch specials. If you have or are handling more than one dog in the same group, please inform the steward and one of the dogs will be moved to the last group.

Each group will first go around as a group, then have their individual examination, gait down and back and around. You may be asked by the Ring Steward to bring your dog and free stand in front of the Judges' Education group (this is subject to change and everyone will be informed before judging). **Bait is permitted, however, throwing bait is not allowed.**

Racing around the ring is highly discouraged. The portion of the standard that refers to "gated on a loose lead at a moderately fast trot" will be enforced.

At my discretion a cut will be made from each group of 10. All the cuts will then come back in the ring for a final cut, and then excused until the bitches have been judged.

The same procedure will be used for Bitch judging.

The final cut from both dogs and bitches will come back into the ring in catalog order. Final placements will be made from this group.

There should be no change of handlers with the above arrangements but if one is required, the steward is given permission to allow the change as long as I have not examined and moved the dog/bitch, otherwise no change will be made.

Good Luck,
Mickey Polimeni
