**Instructions for Best of Breed from our Judge:**

All entrants in **Best of Breed** will not be required to enter the ring at the beginning of judging on Saturday. To make the class easier to manage for the judge, stewards, owners and handlers, **please read the following:**

I would ask that all entrants in breed, plus all move-ups and the class winners eligible for best of breed, to meet with the steward(s) on Friday afternoon either during a specified time period or at the conclusion of that day's judging to arrange what group or groups they will be in.. (Time and place will be announced several times during the day on Friday. -ed.)

It is my intention, at the time I write this, to go through all males and then have the dogs that have made the cut return for a further cut down before doing any bitch groups. I think this makes the most sense and also makes it easier for those animals and handlers that don't then get to continue on to manage the rest of their day.
